Triple Stitched Work Shirts Built to Stand Punishment

For Long Hard Wear

Strength of material, honest workmanship, comfort in design and good value for the price, are the outstanding features of this sturdy shirt. It's a work shirt through and through, for it will stand long, hard usage. Made of standard quality blue chambray. Cut extra wide and full through the body, and full 35 inches long. Has big, roomy sleeves and armholes, interlined collar and cuffs and continuous faced sleeves, two large pockets, and smooth, flat, interlined collar with extension tab on neckband. All principal seams are triple stitched. Made coat style. Trimmed with six pearl buttons down front.

We stand back of this shirt, and guarantee you complete satisfaction. If for any reason you are not satisfied, return the shirt and we will refund your money.

In buying a work shirt there are certain qualifications that should be looked into. Will the material wear? Is the shirt made so it will not rip? Will the garment fit and be comfortable.

In this shirt we think we have given the affirmative answer to these questions, and built a shirt that will give service under trying conditions. This is a triple stitched, reinforced garment that will outlast most work shirts. Material is strong blue chambray. The shoulders and armholes are double. The collar and cuffs are lined. Sleeves have continuous facing. The opening at front is 14 inches. The collar is flat with a curved yoke. This is an ideal offering for the man whose work is hard on his clothes. The price on these shirts is one of the good points about them. They cannot be duplicated at such a figure.

Special

YOU men who do the work of the world, the shirts on this page are for you. We have worked and planned for months to make them the finest possible and we are proud to offer them to you.

In an effort to offer our customers a line of shirts of uniformly high quality, made up in different styles, we investigated the flannel produced by a number of the largest mills in the United States. Thorough tests were made to determine the percentage of wool, the strength, wearing quality and appearance, before we finally decided on this particular flannel. It contains about 25% wool, has a smooth even finish, is of medium weight and will give unusually good service.

A selection of six styles and a variety of popular colors are shown. These shirts are cut full and roomy, with big sleeves and armholes. They are the last word in solid comfort. Double stitched on all seams, giving extra strength. Trimmed with ivory buttons to match color of shirt.

Wear one of these Specials and check it up against other flannel shirts you have worn. Campare the price, compare the quality, then judge the saving for yourself.

A New Style

935C123—Price... $4.95
Regular Shades, Postpaid

A beautiful head dress, made to place over your hair at the back, top of your neck. Arrange the hair about your face any way you prefer, or in pompadour style with this puff covering your knot or roll. It is made of real hair, lustrous and soft in the form of two puffs in lovely natural waves with an attachment at the back to securely fasten it to your hair. It is made more beautiful by a pretty back comb of amber. May be worn as shown in illustration.

Transformation Pompadours

When the hair has lost its pretty natural fluffiness, and because of its thinness, is apt to flatten down, one of these transformations will positively not show when your hair is dressed.

Comb down all your hair and pin the transformation in place. Then arrange your own hair over transformation. There are half transformations for front or back and entire transformations for the whole head. Send sample of your hair to match.

How to Measure For Gloves

It is a mistake to order gloves too small. Get correct size and your gloves will fit better and wear longer.

Draw tape measure around the knuckles, but not tight and not including the thumb. To the number of inches indicated add ¼ inch for your correct size.

Be sure to order gloves large enough.

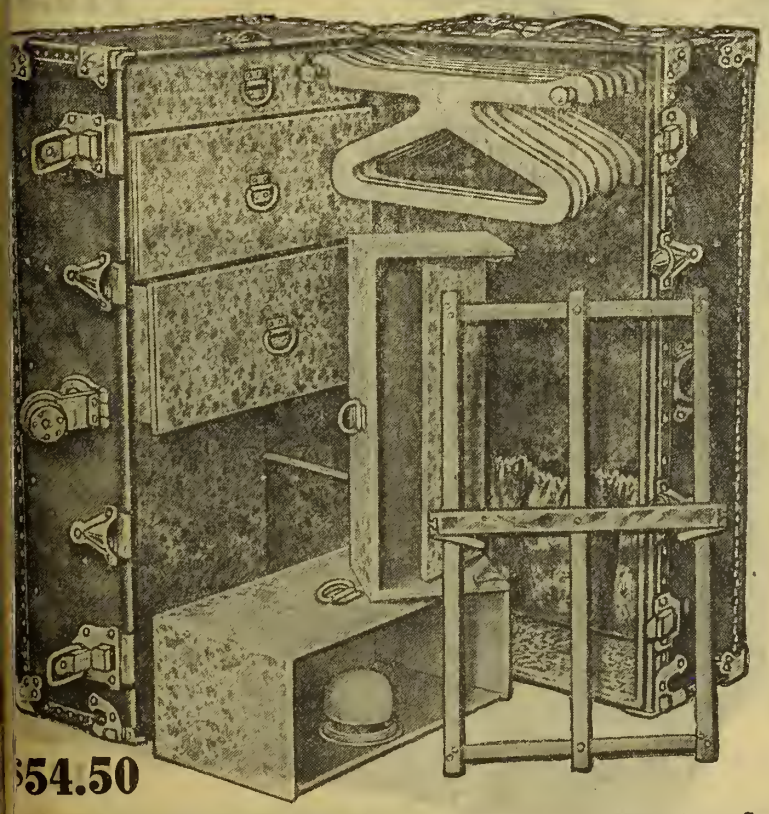
your own home.
occupies little space.

Picture shows the Wardrobe as a Chiffonier

A few years ago a wardrobe trunk was a novelty, something you seldom saw. Then it was a crude affair as compared with the beautiful convenient models we are showing on this page.



Wardrobe trunks were originally used for occasional trips of long duration. Today, they are more necessary than ever, for both long and short trips. In fact, experienced travelers who know the comfort and convenience of the wardrobe trunk do not travel anywhere without one. They know what little packing and unpacking is necessary, and they know how enjoyable it is at the end of the journey to find their clothing fresh and unwrinkled.

In addition to the great convenience of the wardrobe trunk when traveling, it has also become an indispensable article of furniture at home. The improvements and conveniences which have been installed make these trunks as convenient and as useful in the home as when traveling.

This substantially constructed, open top wardrobe trunk, is made of three-ply veneer basswood with vulcanized fibre and interlined with fibre covering. Has smooth working trolley which allows for conveniently placing and removing clothing. Five-ply construction, with heavy fibre binding, draw bolts, extra strong dowels, and automatic spring lock. Has five drawers, including drawer for valuables, compartment for gloves, handkerchiefs, collars and ties, and a special convertible drawer for hats. Three shoe pockets and clothes retainers. Lined with fancy cretonne.

Diamonds

A diamond is a good thing to own, but like every thing else, you want to feel that you have bought it at the right price. The quality we give for the prices quoted represent unusual value; and with every diamond we give a written guarantee to protect your purchase.

Even after the possession of your diamond is made thoroughly satisfactory to you by its own mysterious beauty, another though[t] should come to you in a financial way. The value of diamonds has steadily increased for many years and after you have had the pleasure of wearing one for a long time you find it is usually worth more than you paid for it. There are few investments to be made that compare with the steady increase in value that diamonds have shown in the past.

This year we have added some mountings for diamonds that are the newest and most beautiful creations of the master jewelry craftsmen. A careful comparison of our values will convince you that we can save you money on genuine diamonds.

Our "Solitaire" Ring

Our "Solitaire Style" Diamond Ring

About Our Qualities

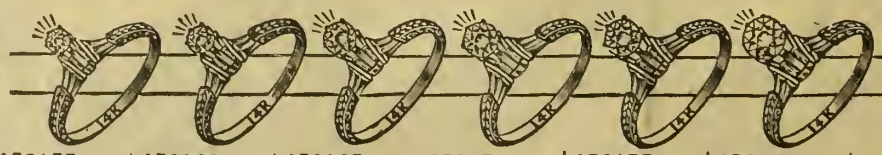
Our "Selected Quality" carefully inspected diamonds of excellent color are perfectly cut and wonderfully brilliant. Anyone would be proud to own a diamond of this quality.

Our "Fine Quality" is slightly different from our "Selected Quality." Usually the color is just as good, but the cutting is not quite as fine. This quality represents special value at our prices.

Our "Medium Quality" is not quite as good as our other qualities, but they are free from objectionable flaws. These diamonds are really very brilliant. There is nothing about the color or cutting of this quality that interferes with the luster or brightness.

Our Liberal Written Guarantee

Our Special Guarantee allows you 60 Days to examine your diamond. If for any reason you decide to return it within 60 days from date of guarantee, we will promptly refund the Full Price You Paid.



At any time within One Year from date of purchase we will refund the full purchase price less 10 per cent.

Within One Year from purchase date we allow the Full Price You Paid towards the purchase of any of our more expensive diamonds.

This guarantee is most liberal and is worthy of great consideration when buying a diamond.

About Our Qualities

Our reputation for handling diamonds of quality has been earned only by adhering to our steadfast rule of carefully inspecting and sorting for a certain standard. The standard we have set permits you to wear one of our diamonds feeling certain that you have a right to be proud of it. Considering the diamond market this year our quality at the prices quoted offers a rare opportunity to buy the right kind of a diamond at the right price.

Our Classic Ring

ere is a beautiful ring for ladies. It is one of the most popular styles that has been luced in many years. The band and top are elegantly engraved. Ring is solid Karat gold throughout. The bright cut setting of the popular white gold that surnds the diamond makes it appear much larger. The color of this white gold being liar to that of platinum makes a pleasing contrast combined with the bright polished yellow gold. Half of the pleasure of owning a diamond rests in knowing that it is correctly and securely mounted.

We made this large photograph to try and show you the l beauty of our "Classic" Ring. The photograph es not begin to do it justice. You cannot imagine what a fect piece of jewelry this is until you have actually n it. The diamond in this ring weighs ⅜ less 1/16 at. **Order by number 45C315.**

The Faultless Ring for Ladies

Seven-Diamond Clusters

Has the Appearance of a Single Diamond That Would Cost Many Times As Much

The diamonds are set in a disc of pure platinum and the ring is solid 14-karat gold. The band of the ring is yellow gold and the prongs are white gold to match the platinum disc.

Ring number 45C455 is an enlarged picture, the other rings are actual size.

Our Faultless Cluster

Please look carefully at this enlarged photograph of one of Our Faultless Clusters and notice how the diamonds are set. They really give the appearance of a single diamond. Each small diamond has an individual setting of its own and is embedded in pure platinum.

This illustration is enlarged so you may clearly see the beauty of Our Faultless Clusters. All of the rings to the right are shown actual size. They are just as beautiful and are made by the same expert workmen.

This ring is number **45C455** and sells at **$100.00.**

Our Faultless Cluster

We have spent a great deal of time and thought in perfecting "Our Faultless Cluster" to one ideal we had in mind. That ideal was to make a cluster that would really and truly look like a single diamond.

The beauty of a cluster depends on how close the diamonds are to each other and at what angle they are set. You can readily understand that it is a difficult task to set diamonds so they almost touch and at the same time have them absolutely secure.

We feel proud of Our Faultless Cluster and know that it will please our customers and favorably pass the most critical inspection.

The diamonds used in making our clusters are very good color, carefully sorted and each diamond is correctly matched so as to make the finest cluster possible.

"I Thought It Was a Single Diamond"

Your friends will be surprised when you tell them that it is n a single diamond but one of our "Faultless" 7-Diamond Clust Rings. Its fiery luster is the same as that of a single diamo that would cost many times more.

45C457—Our Faultless 7-Diamond Cluster Ring for Ladies. Seven carefully matched Diamonds are set in Platinum. The ring is Solid 14-karat Gold. Illustration actual size. Sent in beautiful presentation case.

Diamond-Set Solid Gold Jewelry

The six rings shown directly below are brand w styles and positively beautiful pieces of jew- y. They are a combination of solid 14-k yellow d white gold, the season's popular combination.

Numbers 45C585, 45C588 and 45C591 make the diamond appear somewhat larger than it really is in the ring. These rings and all of our diamond jewelry is sent in fine velvet gift cases.

WHEN you buy diamond jewelry from us you may feel sure that it is correct in style, perfect in workmanship and of unquestioned value. This year we have added many new styles that are really exquisite. Diamonds of course are beautiful in themselves but it is possible to bring out this beauty to a greater degree if the diamond is properly mounted. When you order rings, please remember to state the exact finger size desired.

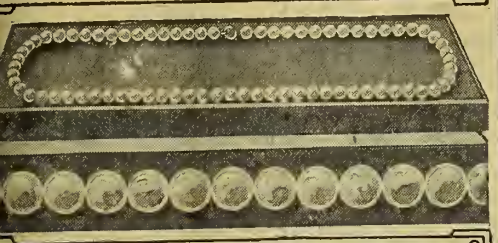
MAJESTIC PEARLS

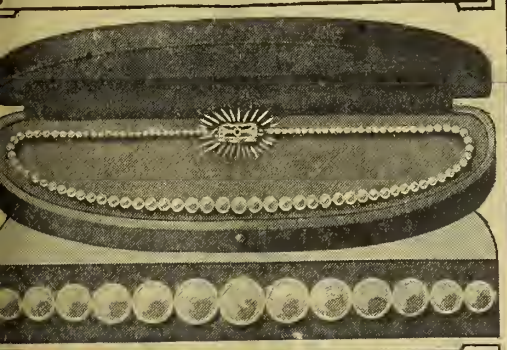
The scarcity of genuine Oriental pearls has caused the price to rise rapidly, until today a necklace of real pearls is worth a small fortune. The ingenuity of man, however, was not to be cheated, so expert chemists have labored unceasingly, until today in scientific laboratories are created duplicates of these rare pearls that fairly rival the beauty of Nature's own production.

The truly wonderful thing about these "man-made pearls" is that they are obtainable at a price well within the reach of all.



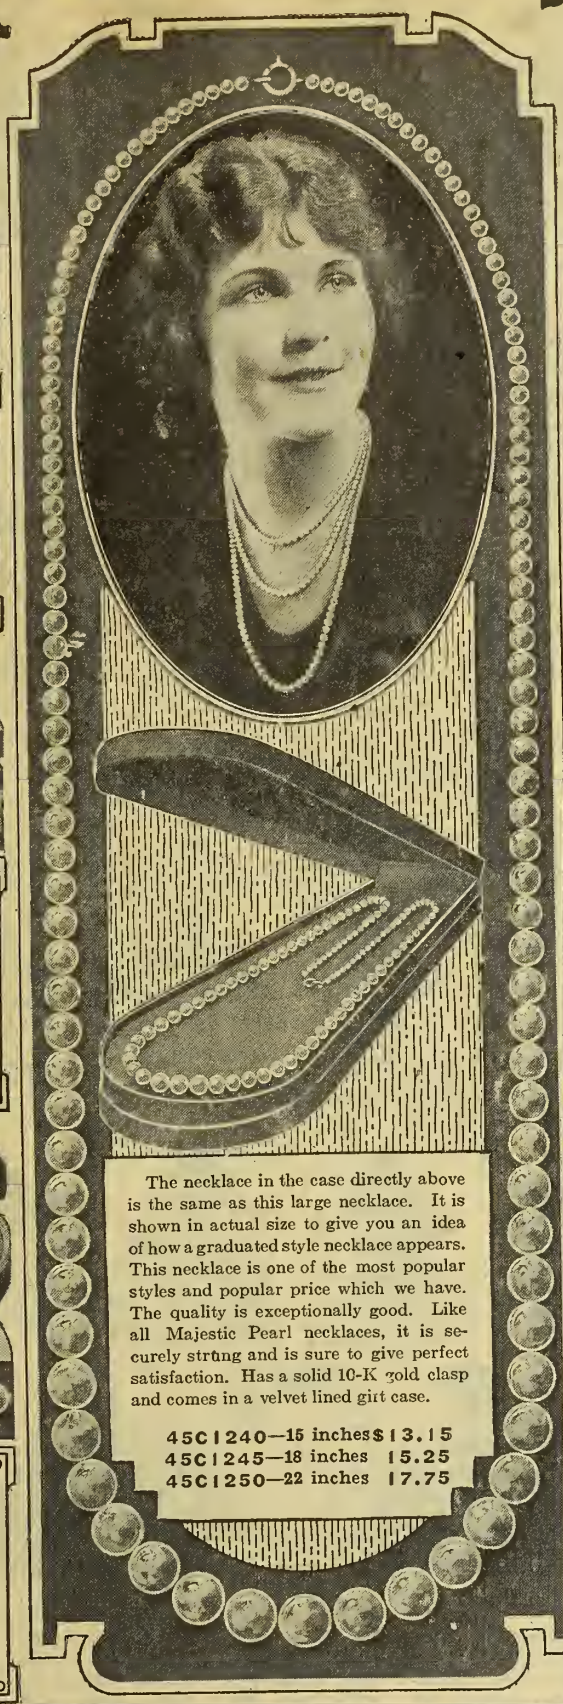
The rich color and soft luster of our Majestic Pearls will excite your admiration. Great care is exercised in matching each pearl before a necklace is made, so as to insure a perfect strand. No gift could be more pleasing than a string of Majestic Pearls and no pearls that you can buy will wear more satisfactorily. The clasps are all solid gold and each necklace comes in an attractive presentation case.

Majestic Pearls are pearls of quality and as such we highly recommend them, knowing they are bound to please you.



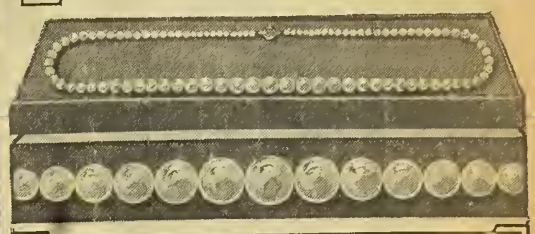
This necklace is what we call uniform style. It means that all the pearls throughout the entire necklace are the same size. Although this is our lowest priced necklace, the pearls are of a very good quality, and you will find them a real bargain. Each necklace is sent in a neat gift case. We have shown a section of the necklace in actual size, so that you can see the exact size of each pearl. Solid 10-K gold clasp.

45C1200—15 in. Postpaid..... $3.72
45C1204—18 in. Postpaid..... 4.29



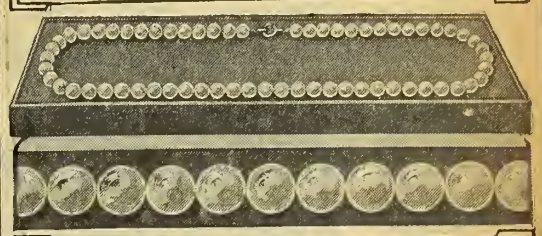
The color of this necklace is known to experts as Oriental. It is high in luster and warm in color and the pearls are brilliant in appearance. This is a uniform style necklace, and the illustration of a section of it shows the actual size of the pearls. A solid 10-K gold clasp holds this necklace securely. Each sent in a suitable gift case. We pay the postage.

45C1216—15 inches long. $9.84
45C1218—18 inches long 10.91



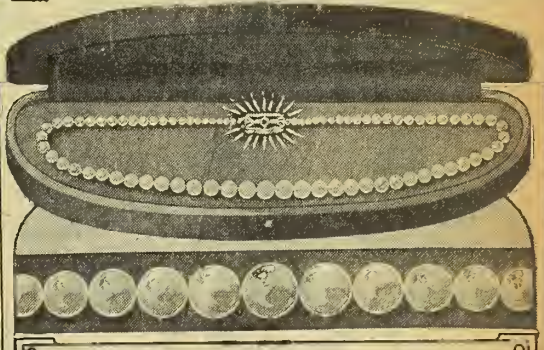
Here is a wonderful reproduction of priceless Oriental pearls with the pure white color and the silky texture which are the real charm of the genuine pearl. Only the finest quality matched pearls are used. This necklace is graduated style and has a solid 14-K white gold clasp in imitation of platinum, and is set with a rose diamond. This necklace is sent in a velvet gift case, and will prove a most acceptable gift.

45C1228—15 inches long. Postpaid ...$26.35
45C1230—18 inches long. Postpaid ... 29.87
45C1232—22 inches long. Postpaid ... 36.50



The necklace in the case directly above is the same as this large necklace. It is shown in actual size to give you an idea of how a graduated style necklace appears. This necklace is one of the most popular styles and popular price which we have. The quality is exceptionally good. Like all Majestic Pearl necklaces, it is securely strung and is sure to give perfect satisfaction. Has a solid 10-K gold clasp and comes in a velvet lined gift case.

45C1240—15 inches $13.15
45C1245—18 inches 15.25
45C1250—22 inches 17.75



Here is a graduated pearl bead necklace of very good quality. By graduated we mean that the center pearl is the largest in the strand, and that each pearl is gradually smaller, tapering towards each end of the strand. The lady in the illustration is wearing three different necklaces. The top one is 15 inches long, the second one 18 inches long and the bottom one 22 inches long. From this picture you can determine which length you prefer. The clasp of this necklace is solid 10-K gold. Each is sent in a pleasing gift case.

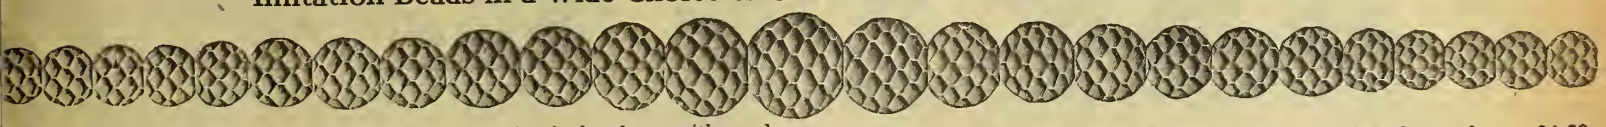
45C1212—18 inches long. Postpaid.... 5.27

Here is a necklace, with the wonderful color and the soft, delicate sheen that are found in the finest Oriental pearls. Each pearl is carefully matched for size, color and perfection. This is a very beautiful necklace, and will surely please anyone who is an admirer of pearls. This necklace is uniform style, and has a solid 10-K gold clasp. Sent in a neat case, ready to make a welcome gift. We pay the postage.

45C1220—15 inches long $15.85
45C1224—18 inches long 18.68



Our best pearl necklace. It is graduated style and each pearl is perfect. The pearls are white in color and possess wonderful luster. Do not confuse this necklace with ordinary pearls. This is rare quality. The clasp of this necklace is solid 14-K white-gold. It looks like platinum. It is set with a rose diamond. The necklace will come to you in a velvet case. We pay the postage.

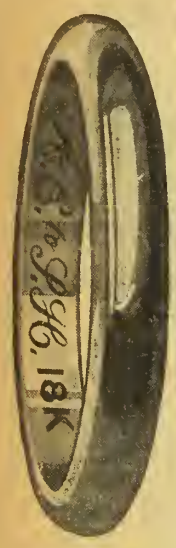
WEDDING RINGS



Solid Gold, Seamless Construction

Our wedding rings are made in one piece construction—a continuous unbroken band of gold. Every ring is a lasting token that will wear a lifetime. Particularly popular are the hand engraved and the narrow English styles. They are narrow and half-round in appearance. The others are the standard oval band Wedding rings.

We can furnish these rings in any size except the two pennyweight style, this weight ring cannot be made larger than size 10. We engrave them free wi h initials and date. Please write plainly the letters you wish us to engrave. We pay the postage on all our Jewelry. Please be sure to state finger size wanted, when ordering.

Our English Style Wedding Ring

A narrow, continuous band of solid gold, which has an air of permanence and dignity. This is a new and favored style, prized for its comfortable fit as well as for its beauty and lasting service. You'll see it pictured directly below in exaggerated size, the better to show its graceful, enduring design. Your choice of 3 qualities of solid gold.

How to Find Finger Size

To Get Correct Size from an Old Ring

If you have an old ring that fits your finger, place it over these circles till you find the one that is the exact size of ring inside. The number inside the circle denotes your finger size. If your ring is smaller than one circle and larger than the next, order one-half size between. For a wedding ring or band ring order one-quarter size larger than the measure indicates.

To Get Finger Size

Wrap a narrow strip of paper snu around largest part of finger. paper off so the ends just meet. The best imitation of diamonds. Made in the laboratories of France and imported direct from the cutters by us. These White Synthetic Sapphires are identically the same in chemical composition as the natural sapphires. They stand the test of fire and acid. The non-expert finds it difficult to distinguish these manufactured stones from nature's own product. They have the appearance of diamonds and retain their brilliancy permanently. Set in mountings of solid gold, they make attractive jewels that one is proud to own.

Dickens Style Watch Chains

These popular chains, as the small illustration shows, extend clear across the vest. The bar through the buttonhole means added strength and security. The watch, of course, is attached to one end of the chain, and on the other end may be worn a gold knife, pencil, pocket comb, etc. For an attractive showing of useful items to wear with Dickens style chains, please turn to page 439 of this catalogue. We show several attractive styles here, and they are all pictured in actual size. We pay the postage on all our jewelry.

Self Filler

Our Reliable Lakeside Fountain Pens

Non Leakable

Our Lakeside Fountain Pens combine all of the desirable features necessary to make a fountain pen thoroughly satisfactory. The pen points are Solid 14-Karat Gold of full length and substantial weight—tipped with iridium to give the smoothest and longest wearing point possible. The barrels are made of heavy stock black rubber with caps that are carefully ground and fitted to make the pens really leak-proof. As described, a safety pocket clip is built right into the barrel. Of the convenient self-filler models—we particularly recommend the lever-filling pens as being the most improved—Raise the lever—dip the pen in ink—close the lever and your pen is filled. We strongly advise the use of ink made especially for fountain pens.

All Bracelet Watches on this page and also on page 445 that are described as "Swiss" have these High-Grade Swiss Movements.

This is an illustration showing one of our High-Grade Swiss Movements furnished with every watch on this page and page 445, that is described as "Swiss." They are reliable, dependable movements and we recommend them very strongly. Our Swiss Watches are made with one idea foremost in our minds—that these watches render the greatest timekeeping service possible. The prices we ask for these high-grade watches are especially reasonable considering their quality.

Of the several grades of Swiss Watches on the market, unfortunately many are made cheaply with a low price the principal consideration. Our Swiss Watches should not be confused with these cheap articles. When you see our watches you will agree with us that our prices are very low considering the high quality of the merchandise. It is impossible to show the real beauty of these movements and cases by catalog illustrations.

On all of these bracelet clasps are unusually s and secure, yet very co lent to detach. You probably noticed the anno caused by the ordinary in this regard. You will oughly appreciate this the ful feature of our bracelet

Our Special High-Grade Swiss Watches

These Movements Furnished with all Watches in This Book Described as "Swiss"

THE above illustration is an exact re-production of our Swiss movements which we furnish on all quotations in our catalog for Men's Swiss Watches. When you buy a watch the first consideration is that it should keep time—that the business end of your watch—the movement—should be accurate and serve you faithfully for years to come. After several years of constant experimenting and testing, we have found this movement to be the best commercial grade Swiss Watch that we can obtain.

Switzerland is the home of watch-making, but like all other commodities, inferior grades of watches are made as well as good ones. For a long time, the majority of watches coming from Switzerland have been made cheaply—to sell at a low price and of course, the quality and accuracy of time-keeping have to be sacrificed when a watch is made with price the only consideration. After careful testing, we have selected a movement, the quality of which is without question—not the cheapest watch obtainable, but the most for your money. The greatest time-keeping quality and the most service.

The jewels are carefully selected and fitted, the pinions are tempered steel. Steel escapement and solid nickel plates. To insure long wear, the train wheels are gilt. Wonderfully tempered hair spring and a sturdy main spring insure fine timekeeping qualities. These watches are stem wind and stem set. They are made in 7-Jewel and 15-Jewel. The 7-Jewel movements are adjusted to 2 positions and the 15-Jewel movements to 3 positions. The dials are carefully enameled and are very easy to read.

Throughout our catalog wherever our Men's Watches are described as "Swiss," we furnish this high-grade movement.

Silver-Plated Tableware of Service and Beauty

Look particularly for those pieces described as "Heavily Silver Plated on Nickel Silver." They are American reproductions of the famous old English Sheffield Ware. A hundred years ago English silversmiths were winning great favor because of the beauty of their Sheffield Ware—which was silver plated on copper. Retaining that elegance of design—these American reproductions surpass the original Sheffield Ware in their added wearing-qualities. American Sheffield is heavily silver plated on nickel silver which provides a stronger, harder and more rigid base than copper and assures years of extra service. Other pieces are silver plated on Britannia metal and they too, will please you with their service.

Pyrex—The Modern Oven Ware

The modern housewife appreciates the utility and beauty offered in this modern oven-ware. The containers being transparent, the food can be watched more carefully while cooking to know just the proper time to remove it from the oven. The silver holders make suitable ornaments for any table. Unlike ordinary cooking utensils food does not cling to the sides and bottom of Pyrex Glass and can't burn on. Easy to clean and will not absorb odors

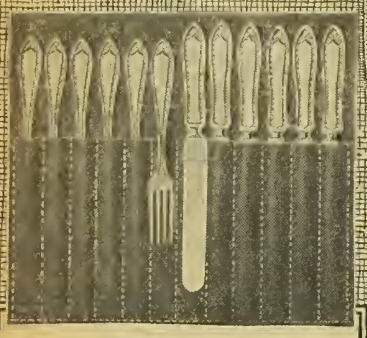
COMMUNITY PLATE

Guaranteed for 50 Years — No Extra Charge for Engraving



Guaranteed for 50 Years

Some people become so enthusiastic over the beauty of Community designs that it doesn't occur to them that its wearing qualities are also very exceptional. All Community Silver is guaranteed to wear for 50 years in ordinary family use—with the exception of knives. As in sterling silver the knives will sometimes show wear before the other pieces, because of being plated on steel. On all pieces, to insure long service a thick layer of pure silver covers the points exposed to the most wear

No Extra Charges for Engraving

On the opposite page we have suggested appropriate styles of engraving for the different designs. The "Adam" and the "Patrician" teaspoons are shown with the Script style letter and the "Sheraton" with the Old English. We believe these to be the most suitable; however, will gladly engrave either style you prefer on the design of your choice. When ordering, please mention the style you wish and also the letter to be engraved. If it is to match engraving on silver you already have, please send sample. All Community Silver purchased from us will be engraved with a single letter without extra charge.

Adam Design

The teaspoon pictured above in actual size, shows the new, beautiful Adam Design of Community Silver. It derives its name from the delicate die-struck ornamentation, a favorite device of Robert Adam, the famous designer. Polished finish.

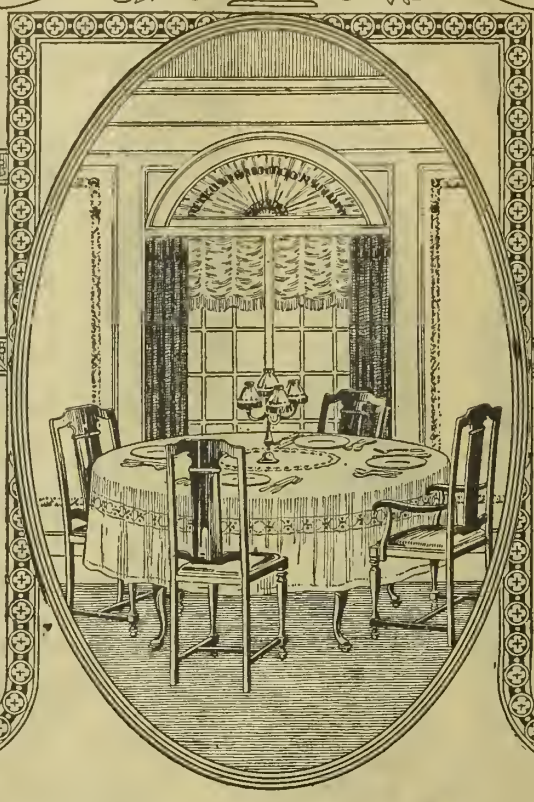
Patrician Design

The above, full size picture of a teaspoon illustrates the Patrician Design of Community Silver. A triumph in simplicity, with rare beauty in its polished bevels.

Sheraton Design

The teaspoon above shows in actual size, the Sheraton Design of Community Silver. It is French gray finish with delicate ornamentation. The blades, bowls and tines of pieces in this pattern, are polished.

We Engrave Community Silver without Extra Charge and We Pay the Postage



We engrave a single initial on all Community Silver purchased from us without extra charge. Modeled handle Knives, however, are too hard to be engraved. The large size pictures of teaspoons show the styles of lettering most appropriate for each design. When ordering, please write plainly the letter you want engraved. If engraving is to match that on silverware you already have, please send us a sample. Please be sure to order by the correct article number. Use the numbers in the column under the name of the pattern you have selected. There are no other charges. The price quoted is all you pay for any article on this page.

Silver Plate That Wears

Young housekeepers, when they buy their Silverware, are following the example of their parents and grandparents in selecting 1847 Rogers Bros. Silverware.

For more than 70 years this sturdy, beautiful silverware has been a fixture in millions of American homes. And it has won its honorable place by faithful service. The designs we offer now are strictly modern and conform with the very lastest ideals in tasteful home decoration. But the quality is the same, old-fashioned excellence that won the respect and friendship of three generations.

The exact reason for its remarkable wearing qualities is this: Every piece of 1847 Rogers Bros. silverware is triple plated with pure silver (purer even than sterling.) The knives are plated with 16 pennyweights of pure silver to the dozen.

We Engrave This Silverware and Pay the Postage

We pay the postage on 1847 Rogers Bros. silverware. In addition, we engrave this silverware without expense to you, in the attractive styles shown on the opposite page, in the large illustrations of teaspoons. When ordering, please write plainly the letter you want engraved. Also, please mention whether you prefer the Script Style, as shown on the Heraldie and Queen Anne teaspoons, or the Old English Style, pictured on the Old Colony and Cromwell teaspoons. When ordering engraving to match that on silverware you now have, please send us a sample.

The price quoted is all you pay for any article on this page. There are no other charges.

We Engrave 1847 Rogers Bros. Silverware without Extra Charge

We will engrave each piece of 1847 Rogers Bros. Silverware purchased from us, with a single initial, without extra charge. Solid handle Dinner Knives, Dinner Forks and Fruit Knives, however, are too hard to be engraved. The large illustrations of teaspoons show the style of engraving that is most appropriate for each pattern. When ordering, please write very plainly the letter you wish engraved. If you want engraving to match that on silverware you now have, please send us a sample. Please note that the pickle fork in the Queen Anne pattern has a short handle—in the other patterns it has a long handle as pictured. Unless otherwise stated, every piece we list can be furnished in all four patterns. Please be sure to use the correct article number when you order. Use the numbers in the column under the name of the pattern you wish to buy. **We pay the postage.**

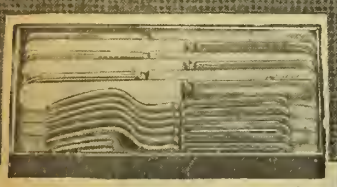
Wm. Rogers EAGLE BRAND Silver Plate

LUFBERY PATTERN

ASHLAND PATTERN

Made by the International Silver Co.,
the Makers of the 1847 Rogers Bros. Brand of Silverware



In addition to the regular plating of silver over the entire piece, there is a layer of pure silver applied to the backs and tips (the parts that get the hardest wear). This explains the long service that you will get from this handsome table ware. We engrave it with Script Style initials for 4 cents per letter; with Old English style initials for 7 cents per letter. When ordering engraving, please write plainly the letters you wish engraved.

A complete assortment of pieces in both patterns. Your choice of pattern.

OUR PANAMA TABLEWARE

Looks Like Solid Silver—Costs Far Less—Lasts Longer

Panama Ware is not silver, nor is it plated with silver. It is one solid metal throughout—tough, hard and durable beyond belief, and capable of taking a beautiful polish. It makes the ideal tableware for daily use, and will last a life-time. Only soap and hot water are needed to keep it bright, but if left long in acid or salty foods it will tarnish just as silver will and can be cleaned with any scouring powder or silver polish. Buy Panama Ware expecting to get good continuous service, and remember, we stand back of it, guaranteeing you satisfaction. Panama Ware is even too hard to be engraved. This hardness means extra durability and added service to you.

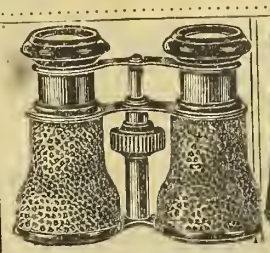
Bausch and Lomb 6-Power Stereo-Prism Binoculars

$37.50

Here is an American made glass that offers the most desirable optical qualities combined with sturdiness of construction and compact form.



Size: 4¼ inches high; 6½ inches wide. Diameter of objective lens, 1 inch. Field of vision at 1000 yards, 120 yards wide. Magnifying power, 6 times.

Finish: Fitted with finest quality lenses, ground from special optical glass. Metal parts finished in finest, hard black enamel. Barrels are ribbed for strength and so carefully finished and assembled as to exclude dust and dampness. Has separate focus for each eye for people whose eyes are not alike, as well as the handy simultaneous adjustment. Large, comfortable eye pieces. Complete in leather covered case, with shoulder strap for case and neck strap for glass.

This is an ideal glass for general use. The 6-power glass gives a larger field of vision, greater light gathering powers and clearer definition than higher power glasses, and at the same time does not have to be held so steady. It is particularly desirable for use at races, games, etc., or to observe any object in motion.

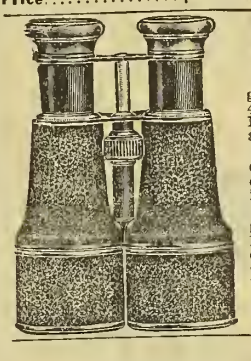
Shipping weight, about 3 pounds.

46C3905— Price **$37.50**

3-Power Field Glass

Extended, 4⅜ inches; closed, 3¼ inches. Diameter of objective lenses, 19 lignes (1 11/16 inches). Metal parts are finished in fine black leather. Complete in an imitation leather covered case. A low priced glass, of very fair optical qualities and good finish. Shipping weight, about 1½ pounds.

46C3895— Price **$6.75**



Le Fils Field Glass

Magnifying power: 3½ times. A small, light, compact Field Class, especially favored as a bird or nature-study glass. Made by Colmont in Paris, whose name is a guarantee of satisfying quality.

Height: extended, 4¼ inches; closed, 3¼ inches. Diameter of objective lenses, 19 lignes (or 1 11/16 inches).

Finish: Finest black enameled finish, nicely polished. Barrels, leather covered. Leather case with shoulder strap. Shipping weight, 2 pounds.

46C3890—Price **$8.60**

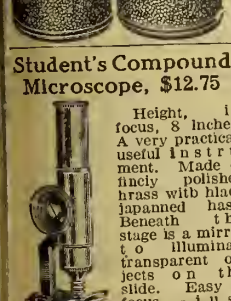
An excellent day and night glass, with a magnifying power of 4½ times. Made in Paris by Marchand. Fine quality, clear achromatic lenses.

Size: Extended, 7¾ inches. Closed, 6¼ inches. Diameter of objective lenses, 24 lignes (2⅛ in.).

Finish: The metal parts are finished in choicest black enamel. Black, morocco grained leather coverings. Nickel plated rings. Comes in a leather covered case with shoulder strap. **Shipping wt., about 3 pounds.**

46C3910—Price **$13.75**

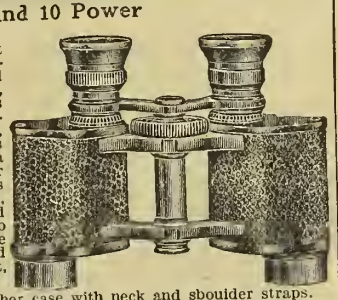


Colmont Field Glass

Magnifying power, 5½ times. A large glass with splendid quality, flawless achromatic lenses. The extra wide objective lenses (26 lignes) give greater illumination, sharper definition and a wider field of vision than you find in 24 ligne glasses. Excellent quality, in every detail.

Size: Extended, 7¾ in. Closed, 6⅝ inches. Diameter of objective lens, 26 lignes (2¼ inches).

Finish: Metal parts are beautifully black enameled. Morocco grained leather coverings. Complete in carrying case with shoulder strap. Shipping weight, about 3 pounds.



46C3925— Price **$22.00**

Lemaire Prism Binoculars

8 and 10 Power

These are magnificent instruments of faultless accuracy, sturdy strength and elegant finish. Powerful, too, the eight-power glass being an excellent instrument for all-around use, while the ten-power is made for those who want a very powerful glass to cover big distances. Both glasses are made of aluminum-alloy, with glossy black japanned tubes and black morocco leather coverings. They are light but extremely rigid and compact. Shipping weight, about 4 pounds.

Complete with sole leather case with neck and shoulder straps.

46C3920—8-Power Lemaire Prism Binocular. Field of view at 1,000 yards, 110 yards wide. Height, closed, 4¾ inches. Objective lens, 1 inch in diameter. Weight, 20 ounces. **Price** **$50.50**

Cecilian

"The Phonograph with a Cello Tone"

Why CECILIANS Are Superior—

1. Sound Box. Constructed to eliminate vibration, and to interpret every note with all of its original beauty.

2. Tone Arm. Convertible so that it plays any make of disc record without the aid of any other devices.

3. Tone Control. The tone modulator enables you to reduce the volume of sound to a distant faintness, or to have it as loud as you desire without affecting the quality of tone.

4. Speed Regulator. Reliable and instantly responsive. Simple to adjust.

Automatic Stop. The attachment is thoroughly reliable, simple in construction and easy to operate.

5. The Motor. After most rigid tests has proven to be one of the most even running motors in existence. Dependable at all times. Unaffected by climatic conditions. Special process steel springs are used, unusually strong and durable. All spring trouble is eliminated by patents that have made breaking and slipping practically impossible. All bearings liable to wear are set in phosphor bronze. Spiral teeth gears make winding noiseless.

6. All Wood Tone Chamber. Made on the same principle as the violin. The notes which issue from the all wood throat are softened, yet full and clear. The purity of tone is remarkable in its lifelike quality.

7. Cabinet Woods and Construction. The woods are selected for their finely matched grain, and are thoroughly seasoned. Cabinets are made with the utmost care. The knowledge and art of the best designers and cabinet workers are are used in the building of a Cecilian Cabinet.

8. Record Compartments. The lower part of the Cabinets are made into sections ideal for the keeping of records.

9. Metal Plated Parts. All exposed metal parts are either heavily nickel-plated or plated with solid gold, depending on the particular design ordered.

10. Ball Bearing Casters. Made of brass and are easy rolling and quiet.

We have always maintained that the best place for anyone to decide upon the selection of a piano is in one's own home.

We will send a Windsor piano or player piano to any responsible person, freight charges paid, for 30 days' free trial, so that you can make a thorough and critical inspection.

We want the Windsor piano compared point by point with any other piano on the market today, and to prove its own musical worth in your own home we willingly abide by the results of such comparisons.

Just fill out our free trial order coupon and mail it to us now. It puts you under no obligation; we stand all the expense of such an investigation on your part.

Bridge on Sound-board

The bridge is made of built-up maple about 2 in. wide and 1½ in. thick; glued to the soundboard and runs in such a direction that all strings will pass over it. The strings are stretched tightly across and over the bridge, which communicates their vibrations to the soundboard. This method of construction of the bridge is one of the greatest aids in producing the wonderful tone quality found only in Windsor Pianos.

Pin-block or Wrest Plank

The pin-block of the piano is one of the most important parts of the instrument. It must be built to withstand not only extreme changes in temperature, but the enormous tension of the strings and tuning-pins. The pin-block of the Windsor is made up of several layers of maple glued together under intense pressure. The grain of each layer of wood runs crosswise with the other, thus making it practically indestructible from any cause.

Upright Pianos

We have several designs of unusual merit. Instruments to delight the most exacting taste. One notable and impressive thing about all Windsors is the superior tone quality. They have volume, resonance and carrying power, and all the sweet singing qualities found in Grand pianos.

The action in the Windsor is the latest double repeating type, which insures a responsiveness to the touch found only in high grade instruments.

Each piano that we show in our catalog is the product of master craftsmen. Note the beautiful lines of case. Every detail that insures lasting satisfaction, and pleasing tone has been built into Windsor Pianos.

With every Windsor piano is given a guarantee for 25 years against defects in workmanship or material.

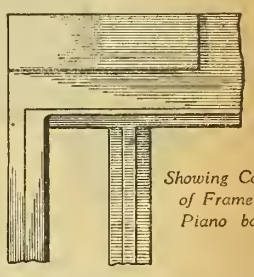
Do Not Pay Us a Cent Until You Are Satisfied

WE have absolute confidence in the satisfying qualities of Windsor Pianos and want you to appreciate the merits of the Windsor Player Piano also. You need not send us a cent until after you have tried any Windsor Piano or Player Piano you wish, for thirty days in your own home.

After comparing it in tone, appearance, and construction or any other detail, if you are entirely satisfied that the Windsor Piano will please you more than any other piano, send us only the small first payment specified and the amount of the freight charges we have advanced for you. The order blank below is the only paper you sign. And remember that we do not charge you interest on the unpaid amounts on the piano you have bought.

The workmanship and materials used in Windsor Players are the finest. Windsor Players represent all that is best, in player construction and in mechanical perfection and artistic design and finish.

The tubing is made of metal instead of the rubber used in many other makes. These metal tubings are connected from tracker to primary actions in an ingenious manner, which makes it almost impossible for them ever to become loose.

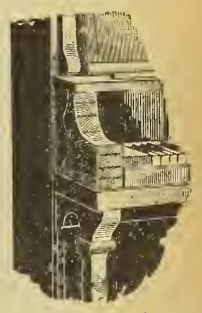


When the player parts are concealed by the sliding panels, the Windsor Player Piano looks like any regular piano and may be played by hand in the customary manner.

The keys are made of elephant tusk ivory, and the sharps are ebony finish of the finest quality.

The tops are one-piece, of the beautiful Empire type. The music desks are the latest automatic duet extension pattern. The fall board has a continuous hinge and folds back completely out of the way when the piano is in use.

The sounding board and ribs used in the manufacture of Windsor Player Pianos are made of carefully selected, thoroughly seasoned spruce, which is the most responsive wood for the purpose. The sounding board is made up of narrow strips glued together. The grain of these small strips is carefully matched so there may be no break in the vibration.



In every feature of construction and finish Windsor Players are as perfect as it is possible to make them.

Showing Corner of Frame or Piano back

The frame must first of all be powerful. Its function is to furnish support for the entire instrument including the terrific pull of the strings and the continuous vibration of the sounding board. The Windsor frame is made with six posts. All these posts, in fact the entire back, is made of selected wood. This frame is without doubt or question of the strongest construction.

The Case Foundation and Veneers

We ask you to particularly note the accompanying illustration, observe the durability manifested in our built up case work, made of several thicknesses of hardwood, over which are glued two successive layers of beautiful veneer which is hand polished, producing that brilliant and lasting lustre found only on high-grade instruments.

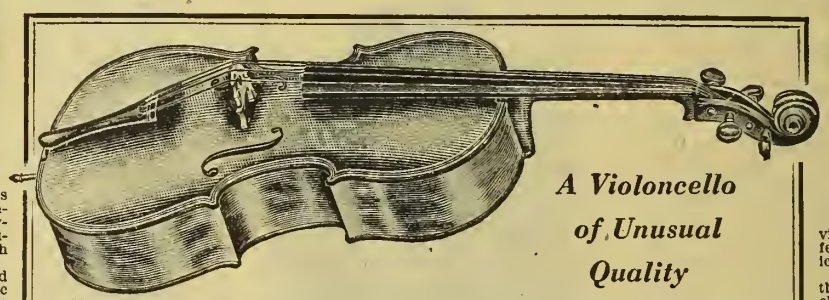
Stradivarius Violin—Master Model

Cremona Violin

This splendid Stradivarius violin places within the reach of every violinist an instrument possessing those mellow, subtle charms of tone shading so essential and so desired by every violinist. Proper selection of material combined with excellent workmanship give the instrument a flexibility of tone so great that the most beautiful phrasing becomes easy for the ordinary player. In quality of tone it is only surpassed by those rare old violins whose value is a modest fortune.

Color is a handsome dark amber, richly polished with oil and shaded slightly to light amber. The shell is of good depth, full lined and blocked. The back and sides are made of selected highly polished Norway maple—beautifully scrolled—ebony trimmed throughout. With this splendid violin we include an outfit in keeping with the quality of the instrument—consisting of a bow of superior quality, genuine leather case lined with plush and having removable bottom, also strings, tuning pipes, rosin and book of instructions.



151C6356—Price **$125.00**

Shipping weight, 18 pounds.

¶ The instruments shown and described on this page are of a quality seldom equaled. We believe that you will have difficulty in purchasing better violins at any price. Clear grained spruce of good acoustic properties, selected broad grained, flamed maple, genuine ebony trimmings, are the only woods used. Scientific construction, delicate coloring, artistic shading and a wonderful hand finish, unite in making each of these violins a tribute to modern workmanship. Try one for ten days. If you are not delighted with the exceptional quality of your instrument, send it back and we will promptly refund your money.

A Violoncello of Unusual Quality

The popularity of the "'Cello" is deserved. It is the most expressive and appeals most strongly to the emotions, for the reason that it approaches nearest to the qualities of the human voice and is capable of finer orchestral effects than any other instrument.

The top consists of well seasoned close grained spruce of superb vibratory quality. Back and sides are made of highly flamed maple. Both top and back are inlaid with fancy colored wood purfling and complete with ebony finished trimmings. The color is a reddish brown, handsomely shaded to amber. An ideal instrument for either the beginner or more advanced student. It comes to you complete with bag, bow, rosin, extra set of strings and instruction book.

151C6350—Price **$69.00**

Shipping weight, 45 pounds.

Conservatory Tone Violin

Conservatory tone violins are justly famous for their beautiful finish and exquisite tone. Eminent violinists after having given the "conservatory" a severe test pronounced it the finest instrument they have ever played upon to be offered at such a low price.

The top consists of two pieces of well selected close grained spruce, a wood that contains the necessary elasticity and vibratory qualities suitable to make good violins. The back and sides are made from highly flamed Norwegian maple. Highly scrolled maple neck. The violin is full lined and blocked. The color is amber, beautifully shaded and oil finished. Altogether a violin that will satisfy those who want only the best.

Stradivarius Violin
A "Faultless Model"

Good copies of these models are eagerly sought after by the best musicians who find the peculiar characteristics of this violin well adapted to their use — it has a little larger swell in the body than is seen in most violins, also larger FF holes. It has a powerful tone, responding with ease, and is of a quality suitable for any purpose.

The color is a beautiful golden amber, handsomely flamed maple back and sides and especially selected spruce top. Fine scrolled maple neck, full ebony trimmed.

Stradivarius Tone Violin
Vuilliam Model

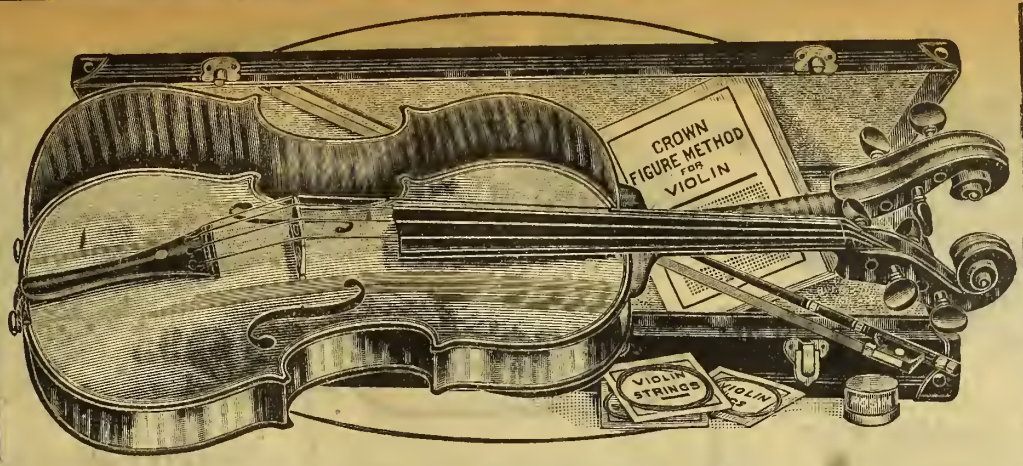
It is our desire to present to our customer violin that will meet every requirement of the professional player, as well as satisfy the most critical amateur who seeks a first class instrument.

We are justified in saying that this is a violin that possesses in its finish all the characteristics and charm that made the Old Masters famous. It has a tone of great depth and purity, presenting the greatest possibilities in tone shading. The varnish is of a beautiful transparent amber, handsomely shaded. Thoroughly seasoned spruce top. Highly flamed maple back and sides. Scrolled neck and full ebony trimmed.

151C6360—Price **$74.50**

Shipping weight, 18 pounds.

Concert Stradivarius



This instrument, with its sweet tone and splendid volume, is ideal for orchestra, dance and concert work. It is clear and resonant in every register and is capable of perfect modulation. The volume is unusually ample because the instrument is a faithful copy of one of the larger sized Stradivarius models. The top is Norway spruce noted for its acoustic properties. The back is two-piece stock—of beautifully figured maple. The neck is neatly carved of curly maple and matches the back and sides. Varnish of a dark transparent quality used only on violins of the most distinctive type gives this instrument an added charm.

A Violin of Excellent Merit

We are told by great violinists that the tone of a violin depends upon so many different conditions that there is no process requiring so much skill, experience and judgment as the construction of a really first-class violin. This instrument we offer is the result of such a combination. It has a beautiful, flexible tone of remarkable purity and sweetness. A close-grain spruce top, with a beautiful carved scroll—flamed maple back and sides are the woods used in its construction. Finished in transparent amber varnish and nicely shaded. Full lined and blocked and ebony trimmed. This violin is equipped with a handsome outfit consisting of fine flexible bow, fiberette case, with patent clasps, extra set of strings, Rosin and instruction book.

A Low Priced Stradivarius Model

In offering for your consideration this splendid outfit, we call your attention to the fact that this instrument is a perfect copy of a genuine old Strad. Made from an original model by a famous European violin maker. It possesses a beautiful, clear bell-like tone of extraordinary quality. The back is made of two pieces of highly flamed maple. The neck and sides are also made of maple. Handsomely varnished in dark amber and spruce top inlaid with purfling. Ebony finished tailpiece and fingerboard.

This violin is equipped with an excellent outfit—consisting of bow—pasteboard case—strings—rosin and complete instruction book. An ideal outfit for the beginner or more advanced pupil.

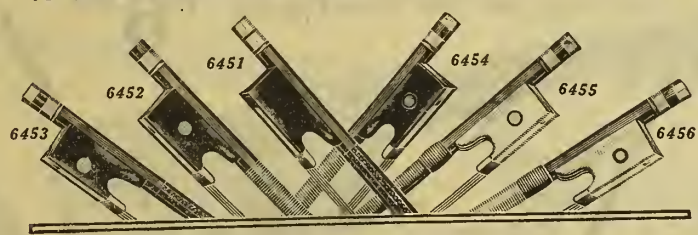
Violins of Guaranteed Quality

In placing this line of high-grade violins in our catalogue we have been careful in selecting only such instruments, as we feel confident will meet the widest possible needs of our customers, at prices within the means of all.

They embrace the best products of the greatest makers, and each instrument possesses an individual merit. Our policy permits our customers to examine any instrument under most favorable conditions and if the violin does not meet your requirements, may be returned and your money refunded.



Under the circumstances is it not by far the best policy to deal with a house of established reputation for fair dealing and honest merchandise and to a large extent be guided by its advice and suggestions.

An Ideal Students' and Children's Violin

In making up our collection of violins we could hardly overlook the claims of the young people. There are many children who because of their limited reach cannot play upon a full size instrument, yet because they are growing it is not desirable to put a great amount of money into the instrument. At this time to meet this condition we have placed a very attractive violin in our catalogue, that is made from excellent materials and possesses a tone of unusual charm. The instrument is well made, with spruce top of selected quality—flamed maple back and sides, ebony finished tailpiece, fingerboard and pegs. Shipping weight, 6 pounds.

The tone of a guitar is determined by the kind and quality of wood used in its construction and also on the modeling of the instrument. Concertone guitars are scientifically built from well seasoned woods of the kinds best suited and selected with a view of securing exactly the right grain. The fine tone of Concertone instruments is due entirely to the excellent workmanship and materials used in their construction.

Banjos must be carefully built to hold the strain at the head. The snap and twang for which Concertone banjos are noted is due to the rigidity of its construction. Our guarantee of Satisfaction or Your Money Back protects you against any defects in workmanship and material.

American Made Band Instruments

Every musician of experience realizes that the selection of an instrument demands the exercise of much care and that he must depend to a considerable extent on the reputation of the store from which he buys it. We believe that any intending purchaser should as a matter of self protection become posted on the merits of our Band instruments, and of the advantages in securing such merchandise from a firm whose business has been built upon the foundation of a square deal.

Your musical success in a large measure depends upon your ability to secure an instrument perfectly adapted to your requirements, and you must have an opportunity to test the instrument, in your home, before you can finally decide on its merits. This is the test we want you to give to our instruments and our liberal trial offer gives you ample time to fully satisfy yourself in connection with the instrument you are interested in before finally deciding on its purchase. If it does not satisfy you in every way, return it to us and we will refund your money and pay all transportation costs.

Although we have endeavored to represent these beautiful instruments in descriptions and illustrations as closely as possible we would be glad to give you any additional information you might require in order to assist you in making a satisfactory selection.

Please allow about 10 days extra for silver plating as this is done specially to insure your instrument being fresh and bright.

WIRELESS TELEGRAM

North Pole

Dear Little Friend:

Your name is not on my list yet for one of those extra fine stockings I am making this year. Take a tip from your old friend, St. Nick—remind your pa and ma to let me know which size stocking I should send you. If you do that, my trusty reindeers will do the rest by bringing your gifts to you safe and sound, Christmas morning.

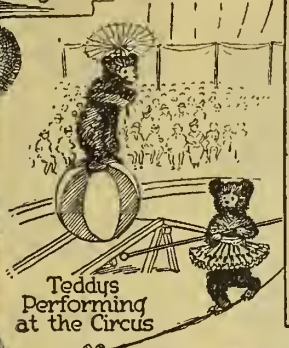
Baby's Most Welcome Entertainers

The Cinnamon Colored Bears With Voices



IT takes more than talcum powder to keep baby smiling. That's why Santa is kept so very busy these days. He's packing his sled full with Teddy Bears. And they are such jolly looking companionable bears! Talkative and entertaining, too. Squeeze them and the chatter that follows is enough to enrapture any little child. Their cinnamon colored plush coats and glass eyes make them look just like their Big Brothers who roam the North Woods. Built to stand harder spankings than the "kiddies" will ever think of giving them.

* * * * *

The children, bless their hearts, deserve happiness! Arrange with Santa to surprise them with these splendid Teddy Bears Christmas Morn, and make the day One Long Remembered Success!

Nazimova Hair Tonic

53C1784—
Large size.....$0.98
Three for..... 2.85
Ship. wt., each, about 2 pounds.

98c

An effective preparation recommended as an aid in cleansing the scalp of dandruff, and refreshing and improving the appearance of the hair. Massaging the scalp with this tonic tends to stimulate the glands at the roots of the hair to healthful action.

Nazimova Hair Tonic is also an excellent hair dressing. It is delightfully perfumed and will keep the hair velvety soft, smooth and in place.

Nazimova

To a woman much more than a man beautiful hair is a wonderful gift. All women desire beautiful soft, wavy hair but few go to the necessary trouble to acquire it. Take care of your hair. It is one of the most valuable of nature's gifts.

It is no longer necessary for one to have faded or gray hair during the later years of their life. Science has duplicated nature's gifts. Science has become so proficient in the art of making the hair soft and colorful that Nazimova has consented to allow one of the very best lines of hair preparations to bear her name and endorsement.

37c

Wardgrade Cocoanut Oil Shampoo

53C1788—4-oz. bottle ..37c
Ship. wt., 6 oz.

Proper Shampooing is what makes beautiful hair. It brings out all the real life, lustre, natural wave, and color and makes it soft, fresh and luxuriant. Your hair simply needs frequent and regular washing to keep it beautiful, but cannot stand the harsh effect of ordinary soap. Free alkali in ordinary soaps, soon dries the scalp, makes hair brittle and ruins it. Discriminating people use Wardgrade Cocoanut Oil Shampoo.

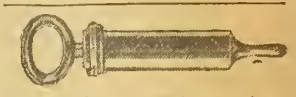
The Globe Junior Ear Phone



53C4261—Price, complete.....$28.00
Shipping weight, 1 pound.
53C4263—Extra Batteries.....55
Shipping weight, 8 ounces.
An instrument for the relief of moderate deafness. This instrument works on the same principle as a telephone. Has the new sound regulator. A wonderful improvement that can be regulated from the softest to loudest tones. Operated by a small, compact dry battery which intensifies the natural sounds. Battery is carried in the vest pocket or inside the waist. The transmitter or sound-gathering part of the instrument is worn out of sight under the coat or waist. Its sensitiveness to sound is remarkable. The earpiece or receiver may be held in the hand when used by a man, or, when worn by a woman, it may be concealed under the hair by means of a light head device which is part of every outfit.
May be worn at church, lectures, theaters, public gatherings, etc., and not detected. Sensitive persons, especially, appreciate this device because of the small yet powerful apparatus which can be so easily concealed. For a strictly high-class hearing aid we strongly recommend this apparatus.
We recommend that an extra battery be bought with the Ear Phone so that you will not be without a battery in case one is damaged. Also better effects are obtained by alternating the use of the batteries occasionally.

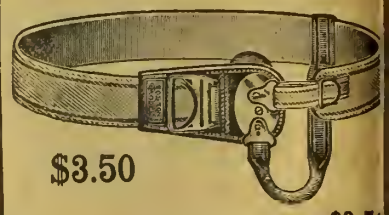
Shipping weight, 1 lb.

Front piece consists of stout, flexible piece of leather to which the egg-shaped Velvo pads are attached. A good comfortable truss for mild or small ruptures. Belt is of fine quality elastic with an elastic understrap. All metal parts nickel-plated. Mention size wanted.

How to Measure

Trusses are carried in even sizes from 30 to 44-inch measurements for adults. Children's sizes from 14 to 28-inch measurements. Sizes larger than 44 at an additional cost.

To measure take a tape line and pass around body on exact line with rupture. (See illustration.) This will give size needed. Giving waist measure is not correct. If rupture is on the side a single truss is needed. If on both sides, a double truss must be used. If it is your first truss consult a physician.



Trusses bought of us fit snugly, follow every move of the body and are comfortable.

IMPORTANT

Do not order a truss for the first time until you have first consulted a physician and he has prescribed exactly the style and size of truss you should wear.

Under no conditions buy a truss for a child or infant, either for the first time or any renewals, without first consulting your physician. A child is constantly growing and changing in shape and therefore must have either a new size or style of truss every time it is necessary to purchase a new one.

Corrective Braces and Belts—Elastic Supporters

How to Measure

Take measurements carefully at places indicated by each letter in the illustration, giving fractions of inches. Be sure to give the length from the lowest letter to the highest. For example: For a garter stocking you would take the circumference at A, B, C, D, and E. Also the length from floor to E inside of limb, also state whether for right or left limb. Measurements should be taken, if possible in the morning when the limbs are the least swollen. Always state whether silk or cotton is wanted.

These Garments Are Made To Order

These elastic stockings require from 10 to 12 days' time to make and cannot be returned or exchanged when made according to measurements. Woven elastic garments are a necessity in the treatment of varicose veins, when they are used for compression to prevent rupture of the veins and the ulceration which might follow. Frequently used to protect broken limbs and to help the bones knit. Prices quoted for leggings and knee caps are for one only—not pair.

53C6187 — 10 in. Width Front. Sizes 46 to 50..... $3.75
Shipping weight, 1 lb.

For heavy men or women. Relieves that tired feeling by supporting the strained abdominal muscles. Gives Nature an opportunity to adjust the over-taxed muscles and strengthens the body. Strongly made of non-elastic woven, mesh cloth. Soft, light, cool and comfortable. Washable. Lift up strap gives extra support and quick adjustment.

Our Leader Shoulder Brace

53C6115—$1.79
Price.....
Shipping weight, ½ lb.

The Leader Shoulder Brace slowly but surely expands the chest, squares back and shoulders, takes the tired, listless droop out of the whole body. Scientifically designed to give a man that fine "soldierly" appearance, and to the woman that graceful symmetry so much admired; keep the children from growing round shouldered, gives correct chest expansion and insures deep breathing. Made of fine drill. Has bound edges and strong cords. Be sure to give chest measure when ordering.

Ventilated Mesh Cloth Shoulder Brace

53C6183—$2.45
Price.....

We recommend this as our best constructed, most sanitary and a very comfortable garment.

Everyone should breath deeply. We can live days without food but only a few minutes without air. This brace keeps the shoulders well back and expands the lungs. It offsets the bad effects of stooping. Corrects round shoulders and keeps the body erect. Cut on a different pattern than most braces, broad across the back and supplied with adjustable shoulder straps. Shoulder pieces comfortably padded. No strain or discomfort. Lacing is self adjusting. Shipping weight, 1 lb. Give chest measure when ordering.

Children's Shoulder Braces

C6181 — Made of Coutil. 89c
Price.....

Made in three sizes. Small for young children; Medium for youths and Misses; Large for Adults. Ship. wt., 1 pound.

Be sure to mention size wanted when ordering. Scientifically Designed. Instantly Adjustable. Comfortable to wear.

An ideal corrective for round shoulders. By gently forcing the shoulders back and the chest out induces deep breathing and develops the chest. Can be worn without discomfort and is invaluable for producing a straight, erect posture.

Strongly made of Jean or Coutil, well-boned.

Women's Brace.
53C6106—
Price.....$2.18
Shipping wt., ¾ pound

This brace supports and strengthens the back, gently draws the shoulders back, so as to expand the chest and put the entire body in to an erect, graceful position. Corrects gradually, without discomfort.

Made of a special grade gray cloth with covered leather tipped metal stays of the best tempered steel. Non-elastic web belt with Elastic web shoulder straps. Padded arm pieces. Entire brace shaped to conform to the body curves. Brace is held in position perfectly by regular suspender ends. Made in white color with laced back for women.

Give measurement around body close up under the arms and the length wanted from "A" to "B"

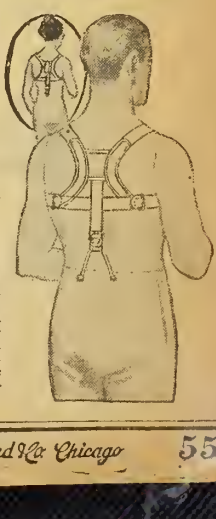
Women's Abdomen and Hip Obesity Reducer

53C6108—
Price..... $5.25
Shipping weight, 1 pound.

Scientifically constructed to conform to the body curves. A correct support and reducing garment for stout women. Compels an erect, healthy carriage of the body. Takes the place of a corset and reduces stout figures. Laced in back. Self-adjusting side-lace. Made of non-elastic corset coutil. Rustless stays. Elastic hose supporters. Width, front, 14 inches, back, 16 inches. Give Waist Measure When Ordering.

Men's Obesity Belt and Health Garment

53C6107—
Price, each..... $4.25
Shipping weight, 1 pound.



A self adjusting obesity reducer for men. Keeps corpulent abdomen in position, giving Nature a chance to strengthen weakened, overtaxed muscles. Laces at sides as weight reduces. Quickly adjusted by shortening or lengthening the "uplift strap". Front clasp allows supporter to be quickly put on or removed. Width of front, about 8 inches. Give Exact Waist Measure When Ordering.

Radium Shoulder Braces

Men's Brace.
53C6117-Price $2.39
Women's Brace.
53C6118—
Price.....$2.39

Shipping weight, ½ lb.

A splendid adjuster of stooped shoulders. For men, women and children. The curved back of the Radium Brace gently presses on the shoulder blades, and forces them back into natural position. This movement is helped by the padded shoulder straps, which go under the arm and around the shoulder. This action, working on both chest and back, produces an erect bearing and natural easy position. Sizes 24 to 42 inches. Give chest measure when ordering.

Pilgrim Medicated Salt

For Cattle, Horses, Sheep and Hogs
Creates Hearty Appetite—Promotes Health

Profits in stock raising depend on the condition and health of your stock. It is far better and cheaper to keep them in health than it is to cure them after they are sick and run down. Get them into first class condition and keep them there by feeding them our Pilgrim's Medicated Salt. It's put up in our laboratory.

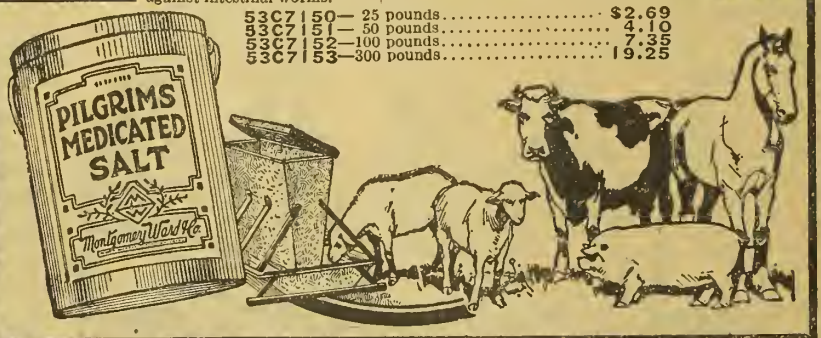
The ingredients supply those elements generally lacking in the feed and which are very necessary for the health and growth of animals. It is especially recommended for creating a healthy appetite, aiding the digestion and generally improving the condition of all animals.

Pilgrim's Medicated Salt is composed of the following ingredients:

Sodium Chloride, which is relished by all animals and makes medicated salt more palatable.

Charcoal, which keeps the digestive organs in better condition.

Copperas, which enriches the blood by supplying iron so much needed for all healthy stock.



Gentian, which gives animals a better appetite and tends to invigorate the digestive system so that food is better assimilated and does the most good.

Fenugreek, used in nearly all condition powders and widely recommended.

Nux Vomica, so generally prescibed for its tonic action on the whole system.

Worm Seed and Areca Nuts, both well known for their action against intestinal worms.

Bitterlick Salt Bricks

The well known Medicated Salt.

Especially recommended by Horse Owners. Fine for Cattle and Sheep, too.

The majority of horses, cattle and sheep require more salt than they ordinarily get with their feed. They also should have certain medicines to keep them in better health.

Bitterlick is a scientific combination of pure concentrated drugs, linseed and salt compressed into bricks to eliminate all was in feeding and to insure a complete assimilation of the drugs into t system.

Bitterlick has won a reputation among stockmen, as a tonic, verm fuge, corrective, blood purifier, digestor, colic preventative and is a excellent appetizer. If kept in a convenient place, such as the fe box, the animals will get as much or as little as their system requir

Bitterlick is not mixed with the feed and it is necessary only to s that a brick is always in the box. It eliminates the bother of salti and feeding powders.

To derive the most benefit from **Bitterlick** keep a brick in a me holder placed in a convenient height in the stalls.

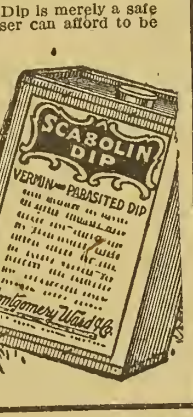
Scabolin Dip

Not Mailable

A Dip and Disinfectant for All Live Stock

Scabolin Dip and Disinfectant is an inexpensive, healing, antiseptic and non-irritating mixture of coal tar creosotes especially recommended for making a dipping solution for horses, cattle, sheep and hogs.

It complies with government specifications of 23 2 per cent of coal tar acids. One gallon of Scabolin Dip in seventy-three (73) gallons of water make a solution of sufficient strength to be used in the dipping tank or sprayed with a hand sprayer.



Owing to its strong germicidal powers Scabolin Dip, wben sprayed in the stables, hog pens, chicken houses, barn yards, runways, etc., has proven a great help in checking epidemics, among stock. It is a noticeable fact that on many farms where a good dip and disinfectant had been used the losses from contagious diseases were very small.

The use of a high grade reliable dip sucb as Scabolin Dip is merely a safe form of insurance at a very low rate and no stock raiser can afford to be without it.

Juvenile Books that Delight the Children

The Books That Sing

They Never get Tired of the Books that Sing

There's a whole series of them, each one complete in itself and each one a delight. They're called Bubble Books because all the music comes out of magic bubbles that a lovely fairy boy is blowing.

Best of all in these books are the things that every child always adores. For only the best in art and poetry and music goes into them.

Each book strongly bound, printed in colors and contains three Columbia records.

COOK BOOKS

The American Home Cook Book

Edited by Grace E. Denison

57C2205—Bound in washable oil cloth. Size, 6x8¼ in. 538 pages. Ship. wt., 2¼ lbs. It is not based on any one authority alone, as so many cook books are, but unites the best ideas of many expert cooks. All the recipes are practical, and have been thoroughly tried and tested. They are also economical, having been carefully selected to meet the requirements of the average home. All extravagant recipes, calling for excessive quantities of expensive materials, have been carefully eliminated. Many foreign recipes are included, and at the end of each chapter a few blank pages are inserted for the housewife's own memoranda.

Assisted by 158 Special Contributors

Many Special Features

One of the best features of this book, is its practical and simple arrangement. On the inside front and back covers, just where the busy housewife can find them the easiest, are tables of weights and measures, with the time required to cook various meats aud dishes.

Full of valuable suggestions for the Busy Housewife. Contains over 1,500 Recipes and Cooking Hints. Illustrated with 16 full page half-tone plates.

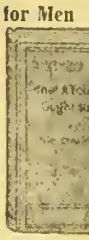
Sex Knowledg

If Only Some One Had Told



Written by H. D. Bailey
Prof. of Biology, Muhlenburg C

This book has been written to help parents give information to their sons and daughters about the dangers of venereal diseases. It contains all the facts about these dangers that they need to know, and the facts are so presented that not one of them will offend. Because of the great amount of harm which has been done through social diseases, and because very few people know the real truth about them this has been the subject of Professor Bailey's lectures to the students.

Memory Training Course

Train Your Mind and Get Out In Front

57C4649—You can do it with the help of this wonderful memory training course—the most complete and at the same time, the simplest.

Are you in a rut with no visible signs of improvement in your position, your business your social standing? Do your friends refer to you as being successful or as being just an ordinary person? The difference between the intelligence or success of men lies largely in the fact that one has trained his mind to serve him instantly, accurately—the other has not.

You Started in Life Under No Handicap

No matter what your present position in the struggle for preferment among the world's workers, you must bear one fact in mind: you started even with the leader. If the leader has beaten you, it is because he made better use of his equipment than you did, and the biggest part of his equipment and yours is the mind you both started with

27 Wonderful Books
A complete Course in Memory Training
By Marvin Dana, M. A., LL. B., PH.D., F. R. G. S.

This Memory Course helps any man or woman to become a master of his own mental powers and a leader in human achievements. So that the student may get every benefit and help, Dr. Dana has divided it into twenty-six lessons—each lesson in a separate booklet—and a book of instructions. A week's study of each booklet in turn will give any average student sufficient instruction. He needs, in addition, only to practice the exercises and to apply, in his own daily life, the various principles involved. Faithful study of these lessons will bring the reward of a perfected working memory, which is the beginning and the end of mental mastery. Each volume size, 4½x6¾ in. Good Inks at a Saving

Thornward Inks
Made in Our Own Laboratory

Our Thornward Inks are a uniformly high quality. Made of the best materials obtainable, ground, mixed and blended in our laboratory under the direct supervision of our experienced chemists. They are free flowing, easy writing and will not fade. Have no sediment. More than meet the requirements of the U. S. Government Standard, and are not in the least affected by the ordinary bleaching chemicals. They do not readily dry up or evaporate and will not gum or corrode pens.
Thornward Inks are ideal writing fluids for every use.

Best Quality of Deep Rubber Type Outfits

Perfect in every detail. The illustrations show the actual sizes of type.

Useful for getting up from one to four lines of reading matter on short notice. These are ideal commercial outfits, perfectly molded of true alignment, and will print accurately. Put up in strong, cardboard box. Each Outfit has self inking pad and tweezers.

Note—Wherever we mention the quantity of letters before font of type we mean there are that many of the most frequently used capitals and small letters. The quantity of letters for the remainder of the alphabet is regulated by the importance of each letter. A 2A, 3a font of type has 2 capitals and 3 small letters, each, of those frequently used. Other letters in proportion.

Reliance Visible Typewriter $67.50

A Standard Machine at About Half the Cost

The Reliance Visible Typewriter fills the demand for a strictly high grade standard machine at a reasonable cost. We sell you this machine for about one-half what you would have to pay for a standard machine of similar qualities. This is possible because we have no agencies or salesmen. The typewriter has become a necessity in the modern home as well as in the office or shop. Correspondence conducted on a typewriter is always more satisfactory and looks more business-like. The price of a standard machine has kept many from buying typewriters. In the Reliance you get everything that you would find in any other standard machine and in addition you have the guarantee of Montgomery Ward & Co., that this machine will give you satisfactory service.

Sold on 30 Days' Trial

Reliance Features

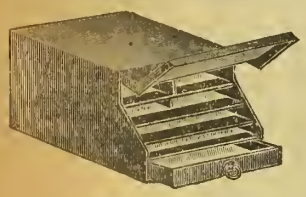
Visible Writing	Type Face Protection
Open Construction	Perfect Ribbon Action
Standard Keyboard	Back Space Key
Rapid Escapement	Marginal Release Key
Light, Easy Touch	Tabulator Stops
Ball Bearing Carriage	Line Lock
Removable Keyboard	Line Ruling Device
Automatic Paper Table	Extra Wide Carriage
Adjustable Paper Fingers	Best of Workmanship

The Reliance has a standard keyboard same as shown on practically all standard machines. The writing is visible at all times and the type bars are accessible for cleaning. There is a two-color arrangement so that by using a two-color ribbon you can print parts of your letter in red if you wish. For convenience in cleaning, the entire type basket and keyboard may be removed. This also makes it possible to substitute new type bars which will print any foreign language you wish. We furnish these additional type bar sets at a reasonable extra cost. If interested in additional type bar sets write us for particulars stating what you want.

Unless otherwise specified, we send you the Reliance Visible complete with what is known as Pica type which is the style of type employed in ninety per cent of machines used for ordinary purposes. We can also furnish machines with other styles on request. The type furnished with the machines is what you will most likely want.

One valuable feature about writing letters with a typewriter is that by using a sheet of carbon paper and more sheets of white paper you can make duplicate copies of your letters to keep for your files. There is a back space key which enables you to move the carriage back if you miss a letter. The Reliance also has tabulator stops, line lock and line ruling devices, so that you can make out bills and keep records with it. Any boy or girl or grown person can learn to operate a typewriter in a very few days. No teaching is necessary. Our instruction book which accompanies the machine gives all the information needed.

If you have any need at all for a typewriter, we feel sure that after thirty days' trial of the Reliance, and if compared with the best machines you know of you will agree with us that it is a bargain. Once you have installed a typewriter in your home you will wonder how you got along without it.



57C8503—Price, complete..... **$67.50**

Ship. wt., 58 lbs. Net wt., 25 lbs.

If after thirty days' trial in your own home you do not find the Reliance perfectly satisfactory, you can return it and we will pay back your money including all transportation charges. Unless otherwise specified we ship by freight.

Reproduces Pictures in their Natural Colors

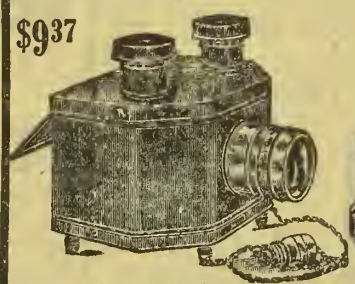
Postcard Projectors

Any illustration or flat object (up to 5x9½ inches, depending on size of machine) may be thrown on the screen, enlarged and in all its own colors; not limited to post cards.

Any photograph or picture you have, any illustration you have from paper, magazine or catalog, cartoons, home drawn animals, such objects as butterflies, leaves, pressed flowers—in short, almost anything—may be shown. No glass slides necessary.

Owing to the fact that all type matter reproduces on the screen in reverse form, we suggest you write to us for full particulars regarding reversing mirror or special screen to overcome this.

All electric post card projectors, are fitted with lamps, for 104 to 112 volt circuits, either alternating or direct current.



Our Prices Show Distinct Savings

Is as popular as the Talking Machine for home, parlor and auditorium amusement. There are no views to buy nor attachments to wear out. You furnish the pictures to be enlarged from your collection of post cards, photographs, or from books, papers, etc.

How to Figure Freight Charges

Railroads divide merchandise into several classes, each having a different rate. The first thing to do, therefore, is to find in what class the article you have in mind belongs. If the classification below does not show the article, take the classification for something similar. Refer to the table of rates given above to find the rate per hundred pounds on that class of freight from Chicago to your town, or to the nearest town shown in the list. Multiply that rate by the weight of the article which is given in the description of our merchandise, in our catalogs.

For example—suppose you live in La Crosse, Wis., and want to find the freight charges on a Plow or a Corn Planter or a Stove. This merchandise takes third class rates from Chicago to western points and the third class rate to La Crosse is 41c per 100 lbs. If the merchandise weighs 650 pounds, the charges would be 6½ times 41c or $2.66. If your town is not shown in the rate table above, figure from the town nearest to your station that is shown. If there is no agent at your station the freight charges must be prepaid; otherwise you pay the charges when the goods arrive.

100 Lb. Shipments and Over Most Economical

The minimum freight charge of the transportation companies is based on 100 pounds. It is therefore to your advantage to include enough items to build your order up to this weight because you pay freight for 100 pounds, whether your shipment weighs 10 or 100 pounds. Over 100 pounds you pay freight for only what you get. Thus if 100 pounds cost you 60c for freight, 110 pounds would cost you only 66c. (One and one-tenth times 60c.) 140 pounds would cost you 84c. (One and two-fifths times 60c), and 175 pounds would cost you $1.05 (one and three-quarter times 60c.). We aim to pack all merchandise so that the shipment will cost you the lowest possible amount for transportation charges.

When several articles are ordered of different classifications, the freight rate per 100 pounds is based on the highest classed article.
